A GRADE PUPILS

reap rewards for hard work & dedication! Thank you parents for your support.

'Do not ask your children to strive'

"Do not ask your children to strive for extraordinary lives. Such striving may seem admirable, but it is the way of foolishness. Help them instead to find the wonder and the marvel of an ordinary life. Show them the joy of tasting tomatoes, apples and pears. Show them how to cry when pets and people die. Show them the infinite pleasure in the touch of a hand. And make the ordinary come alive for them. The extraordinary will take care of itself."

"You can do anything if you have enthusiasm. Enthusiasm is the yeast that makes your hopes rise to the stars. Enthusiasm is the spark in your eye, the swing in your gait, the grip of your hand, the irresistible surge of your will and energy to excute your ideas... I've learned alot! I've learned how to structure my stories, we have the scene, the characters and the setting. I learned some of the interview skills from you and I taught them at school!
I've also written brilliant stories

Books a lovely opening

1 The dust between the books of the cover is only there to stop you from seeing the books. The cover is made of wood. Every step has a book on it.

2 The first book is a lovely opening. It has a cover of gold and silver. The first book is a lovely opening. It has a cover of gold and silver. The first book is a lovely opening. It has a cover of gold and silver.

Roark, Year 6

I've been getting low for maths and I've been getting low for English but I'm really happy because I have now been getting 100 for maths and 100 for English and I'm so over the moon. I have learnt good skills about how to get those high marks but you do also need to work hard if it does not come easily.
